Dr: Arumuga Mudaliar has proposed to put up a Block at the gate of the Victoria Hospital and this is concurred in by Mr. Puttanna Chetty. The proposed site for the new block was inspected yesterday and the conclusion arrived at was that the additional block at the entrance would interfere with the view of the main pile.

There is plenty of space inside the compound where a suitable site for the proposed block may be easily selected so as not to interfere with the front view of the main building. There will be no difficulty in securing proper foundations therefor and the matter will receive attention when the construction is ordered.

Dated, Bangalore, 7-7-1916.

Dear Sir,

Reference:- Your proposal regarding increased accommodation and comforts to patients in the Victoria Hospl:

The out-patients' Department of the Victoria Hospital is at present located in the main (or administrative) block which is almost contiguous with the in-patients' wards (or pavilions) on either sides. This arrangement affords inducement to the out-patients to pass freely along tne pavilions thereby causing much disturbance and discomfort to the poor in-patients.

My idea is to have a detatched block at the main gate of the hospital compound where the out-patients' department (including the Throat, nose and ear Specialist's Branch) could be removed. This will remove the congestion and disturbance now caused in the pavilions and greatly add to the comforts of the in-patients. The space in the main block that will thus be set free could be available for about 25 additional beds.

Sufficient space could be found for erecting a block (decent enough to be in keeping with the existing structure and other buildings likely to be constructed about the place) at the gate of the hospital.

Should you approve of the idea, I shall only be too happy to get the necessary plan and estimate prepared in consultation with Mr. H.V. Karve, Superintending Engineer (retired.)

It may not seem out of place to add that the out-patients' department of the Bowring Civil Hospital in the C. & M. Station, is located in a detatched building outside the hospital, which is the gift of the late Rajadharma Pravina Mr. T.R.A.Thamboochettiar, C.I.E.,

Dear Sir,

In reply to your D.O. No.C.S.139, dated 24th July'16 I write to inform you that I intimated my views to Mr. K. P. Puttanna Chetty on the 6th instant and a copy of my D. O. addressed to him was also forwarded to you for the information of Government. Mr. Puttanna Chetty informs me in his D. O. letter dated 25th instant that he fully agrees with me in my views and that he has already communicated to the Dewan, under date 7th July, his approval of the idea of having a separate building at the gate of the Victoria Hospital, to accommodate the out-patients Department (including the Throat, Nose and Ear section), relieving the disturbance now caused to the in-patients' wards and also setting free ample accommodation for about 25 beds. I have nothing to add to what I have already expressed in my said D.O. to Mr.Puttanna Chetty.

The Dewan Bahadur now adds that a ward may be reserved for Lingayat patients. There is now a Brahmin Ward in which only Brahmin patients are admitted, although, when beds are not available in that ward, Brahmins do not object to go into non-brahmin wards. Similarly, I have no objection to one of the existing wards being called a "Lingayat Ward."
